

IT'S SIMPLE, AND GREEN!

Toshiba's Carbon Zero Scheme offsets the carbon footprint of your EPOS Terminal

At Toshiba we are committed to the environment and with the help of carbon offsetting experts co2balance we have devised a scheme where we can offset the carbon footprint of your Toshiba EPOS Terminal.

All you have to do is select the product that suits your business. Simple!

TOSHIBA

IT'S SIMPLE, AND GREEN!

Toshiba's Carbon Zero Scheme offsets the carbon footprint of your barcode printer

At Toshiba we are committed to the environment and with the help of carbon offsetting experts co2balance we have devised a scheme where we can offset the carbon footprint of your Toshiba barcode printer.

All you have to do is select the product that suits your business. Simple!

TOSHIBA

IT'S SIMPLE...

THE TOSHIBA CARBON ZERO SCHEME IS SIMPLE, AND GREEN!

- We've done all the hard work for you and calculated the amount of carbon each Toshiba product is responsible for.
- We offset the Carbon.
- We're supporting projects in the Developing World to help offset this Carbon.

So, all you have to do is select which Toshiba model suits you best - we'll do the rest!

BENEFITS

- Reduce the impact of your carbon footprint and help tackle climate change.
- Boost your recruitment and retention with positive environmental action.
- Help fulfill your environmental strategies and meet your customer expectations by reducing your impact on the environment.
- Give your business the edge by going carbon zero!

PROJECTS

Carbon offsetting allows for the investment in projects that save the emission of, or absorb, an equivalent amount of CO₂ to that of your Toshiba product.

Such projects include:

The African Stove Project -

supplying energy saving stoves to villages in Kenya.
